DIMEX[®] 

SINCE 1933
FROM GERMANY

SMOOTH, ELEGANT SHAPES AND FUNCTIONS

uPVC has become the best material to have smooth and elegant forms and functions in modern windows & doors designs. In wood it is difficult and aluminum doesn't match it. Not all the uPVC windows are the same the design of uPVC Profiles makes all the difference. Windows made of DIMEX Profiles making a V Groove between Sash and bead distinguishes it from all other windows available in the market.

DIMEX Windows & Doors are a quality and innovation led

RESISTANCE

DIMEX uPVC Windows are all weather resistant and they require very little maintenance and are very easy to clean and they last longer.

CUSTOMIZED IN THE DIMEX AUTHORISED FACTORY NEAR TO YOU

uPVC Windows are customized in the factory and not in your building area. They are made as per your measurement and your specifications agreed with the Sales Executives.

PERSONAL & INDIVIDUAL:

The choice of designs such as Sliding, Casement, Arch, Georgian Bars, Glass, Hardware all makes a difference in the individual character of windows and Doors.

Using DIMEX Profile systems we create our own unique window shapes.

COMFORTABLE & CONVENIENT:

Windows made of multi chambers profiles keep the unwanted noise outside and keep the cool & Warmth inside which make the life so comfortable and give pleasure that you can't resist to appreciate the DIMEX Windows.

DIMEX
Helping you

Since 1933

ALL WEATHER RESISTANT

DIMEX Windows are all weather resistant may this be heavy Rain, Strong Winds, Thunder Storms or Hurricanes.

DIMEX Windows are made exactly to the German norms, with full steel reinforcement, German Formulation, and EPDM Gaskets.

Which makes the windows absolutely Air Tight and water Resistant and impact resistant.

They always remain unaffected.

THERMAL INSULATED ENERGY EFFICIENT

DIMEX makes your windows thermal resistant and energy efficient. Cool in summer and warm in winter. With low conductivity uPVC is a right material for windows. Double glazing is an excellent choice for energy efficiency insulated all around, it improves the thermal resistance. The outside temperature don't effect the inside temperature, and that way, due to its high insulation there is no leakage of energy which reflects in the monthly electricity bills. That is why uPVC Windows are appreciated so much.

FIRE RESISTANT

It is an established fact that uPVC windows are fire resistant because uPVC do not accelerate and spread the frames.

The Chlorine in PVC is Fire Resistant. The windows can smolled but not catch Flames.

These windows are considered to have a 30 minutes. Fire rating which gives enough time to escape.

TERMITE RESISTANT

uPVC's hard surface with important modifications and certain additives in the unique formulation makes the DIMEX uPVC Windows more termite resistant. Therefor uPVC is an inevitable material for windows and doors inINDIA.

BURGLAR PROOF

DIMEX uPVC Windows & Doors are fitted with Burglary Proof Hardware as Standard Added Value.

More than 70% theGs & Burglaries happen through the windows. Along with, The DIMEX exclusive Hardware we also work with other top German Brands of Hardware like: ROTO, MACO, SIEGENIA.

DIMEX

TECHNOLOGY IN MOTION UPVC MULTI LOCK SYSTEM

Window will function good only if the Fittings / Hardware is good. DIMEX make no compromise in that; use only German Certified Branded Hardware. For years along with its own exclusive collection DIMEX also works with market Leaders, Big Brands ROTO, MACO, SIEGENIA as its ChannelPartners.

Quality of uPVC Windows is determent by high quality DIMEX profiles Fitted with high quality Hardware. **Hardware is the SOUL of a WINDOW.**

ENCHANTING & FASCINATING COLORS

Although 85% of the windows sold all around the world are the white color. But now the new trend is shifting towards the colors. Moving with the trend DIMEX offer windows in all RAL colors and wood like Renolit Brand German Foil Laminated Coloured Foils. The choice of colors is an enchanting feeling for all individuals. The latest windows surface technologies is implemented with individual tastes.

DIMEX offers a wide range of Wood Look / Grey and Black Décors as a compromise of modern technology with traditional living.

• You Compare...

But Not Apple with Pear

Off-course from distance All uPVC Windows are alike but as you come nearer you will see the differences between cheap & rich formulation in their appearances, sturdiness, welding and colours, in their functions with good & bad hardware.

A good window with Dimex Profile always speaks for itself.

Dimex was established in 1933 and started working with uPVC Doors & Windows in 1979 in Nehren, Germany. And then in other European Countries.

In 2007 they started with Dimex India.

Today Dimex uPVC windows and doors are being fabricated and installed in over 50 locations in India and this number is on increase.

• **Dimex Profiles are Certified as per EN 12608:2016 Standard**

• DIMEX with its High specificatiofts makes NO COMPROMISE IN QUALITY

• Thermally Insulated

DIMEX Profiles Systems for windows and doors are made using the exclusive extrusion mold method. All molds are DIMEX own designs, the profile geometry is different from all others and specifically it meets with all different requirement in regard to the optical appearance and in terms a of color DIMEX has its own white color call DIMEX White, DIMEX Profile systems are ultimate and ultimate to be fitted in modern building and old houses as an architectural design feature. DIMEX Profiles system influence esthetic of the façade to a great extent and also satisfies all optical and technical characteristics such as noise protection and thermal insulation and ventilation.

• For India DIMEX has its own hot climate formulation with up to 8 parts of Titanium Dioxide, based on New Zealand and Australian Windows and Glass Association experience. DIMEX call it Hot Climate Formulation and it still meet all the EN12608 standards, rather it out performs the others.
